

DESCRIPTION

Material: TEXOFLEX-SLEEVE is suitable for the prevention of pipe condensation, loss of heat when heating and coldness when cooling. It consists of laminated aluminium and glass wool.

Application: Insulation of pneumatic systems, air conditioners, prevention of energy loss and condensation, gutter insulation.

 **Application temperature:** -30°C to +40°C

 **Diameters:** 82 mm to 508mm

 **Manufacturing lengths:** 10m

 **Operating pressure:** to 2000 Pa

 **Ident:** C38+diameter

Internal diameter $\varnothing=D$ / mm /	Name	Manufacturing length /mm/	ID number
82	SLEEVE	L=10 m	C3808210
102	SLEEVE	L=10 m	C3810210
127	SLEEVE	L=10 m	C3812710
152	SLEEVE	L=10 m	C3815210
165	SLEEVE	L=10 m	C3816510
185	SLEEVE	L=10 m	C3818510
203	SLEEVE	L=10 m	C3820310
254	SLEEVE	L=10 m	C3825410
315	SLEEVE	L=10 m	C3831510
508	SLEEVE	L=10 m	C3850810
